Project Name	Electric Vehicle Market Analysis Using Tableau
Maximum Marks	4 Marks

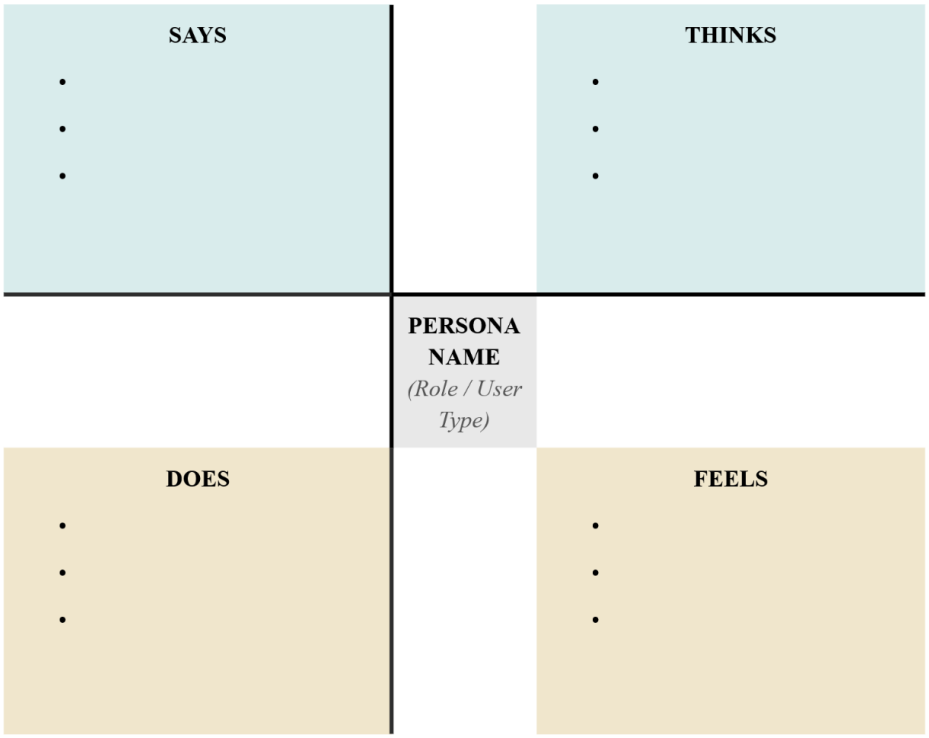

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to helps teams better understand their users.
Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Example:

SAYS

- “I need to know which EV categories generate the highest sales.”
- “I want to compare driving ranges across vehicle categories.”
- “I need clear insights into sales trends.”

THINKS

- Which vehicle categories should we prioritize?
- Which sales trends indicate growth opportunities?
- How can data help improve product and marketing decisions?

DOES

- Reviews annual EV sales data.
- Compares driving ranges and vehicle categories.
- Uses Tableau dashboards to identify patterns and trends.

FEELS

- Uncertain when comparing many vehicle categories.
- Concerned about choosing the right product priorities.
- Confident when clear, visual, data-driven insights are available.

PERSONA NAME

Emily Johnson

Role: EV Market Strategy Director
