Project Design Phase-II
Data Flow Diagram & User Stories

Date	28 October 2026
Team ID	en25el3010067
Project Name	Electric Vehicle Market Analysis Using Tableau
Maximum Marks	4 Marks

Data Flow Diagrams:

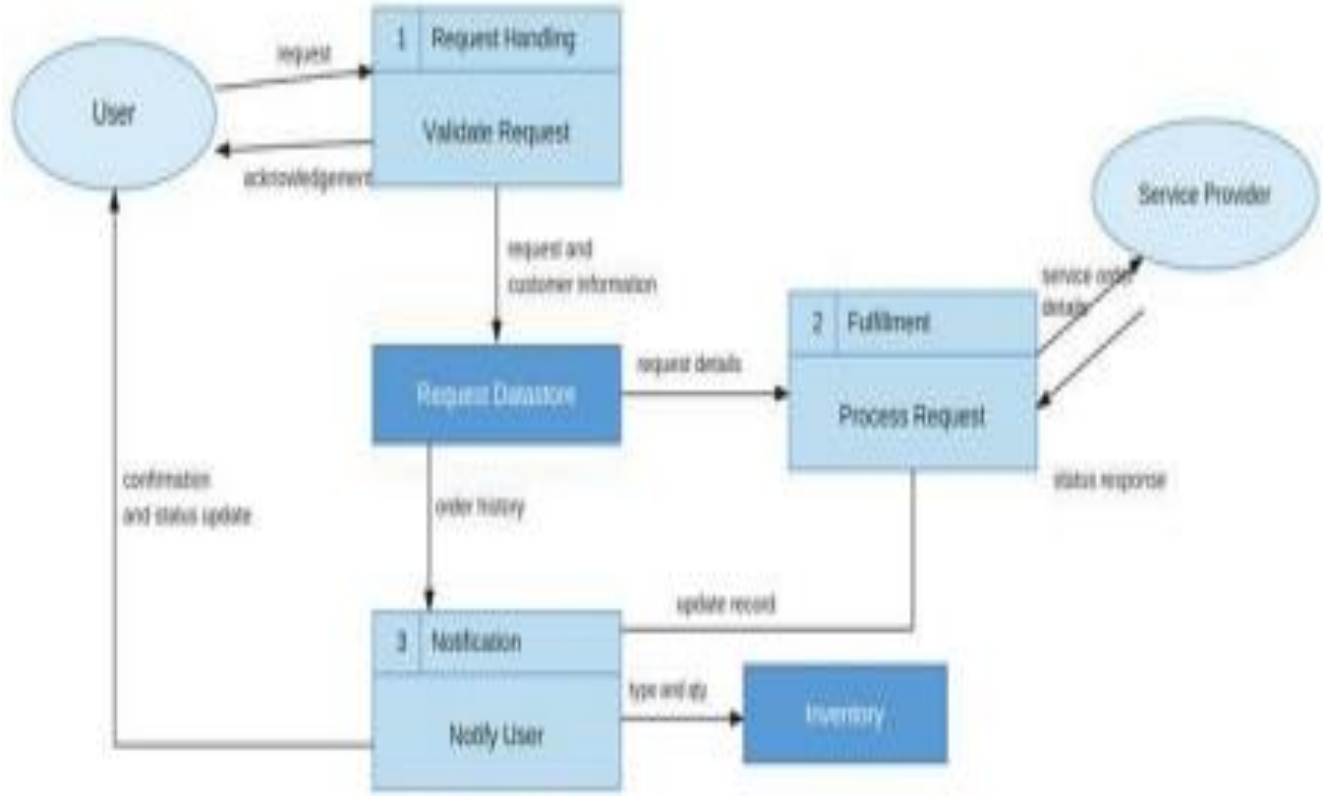

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	**External Entity**	A person, organization, or system outside the project that sends or receives data (e.g., Customer, Payment Gateway).
Rectangle with numbered header	**Process**	An activity that transforms incoming data into outgoing data (e.g., Validate Request, Process Order).
Rectangle (solid fill, no number)	**Data Store**	A place where data is held for later use (e.g., Customer Database, Inventory).
Labeled arrow	**Data Flow**	The movement of data between entities, processes, and data stores, labeled with what data is being passed.

Example: DFD Level 0 (Industry Standard)

User
request
1 Request Handling
Validate Request
acknowledgement
request and
customer information
Request Datastore
request details
2 Fulfillment
Process Request
Service Provider
service order
details
status response
confirmation
and status update
order history
update record
3 Notification
Notify User
type and qty
Inventory

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Market strategy director	Sales Analysis	USN-1	As a market strategy director, I want to compare EV sales by category so that I can identify top-selling categories.	Sales by category are clearly displayed and comparable.	High	Sprint-1
Market strategy director	Range Analysis	USN-2	As a market strategy director, I want to compare average driving range by category to evaluate vehicle capabilities.	Average range is shown for each vehicle category.	High	Sprint-1
Market strategy director	Sales Trend Analysis	USN-3	As a market strategy director, I want to analyze sales trends over time to identify market changes.	Sales trends are displayed across model years.	High	Sprint-2
Business Intelligence Manger	Manufacturer Analysis	USN-4	As a BI manager, I want to compare manufacturer sales to evaluate competitive performance.	Manufacturer sales are clearly displayed for comparison.	High	Sprint-1
Business Intelligence Manger	Geographic Analysis	USN-5	As a BI manager, I want to analyze sales by manufacturing country to understand production distribution.	Manufacturing countries and sales values are visible.	High	Sprint-1
Business Intelligence Manger	Battery Distribution	USN-6	As a BI manager, I want to analyze battery type distribution to understand technology adoption.	Battery types are distinguished using chart labels or a legend.	Medium	Sprint-2
Sustainability Research Analyst	Battery Performance	USN-7	As a research analyst, I want to compare battery technology performance to understand differences among battery types.	Performance metrics are displayed by battery type.	High	Sprint-2
Sustainability Research Analyst	Charging And efficiency	USN-8	As a research analyst, I want to compare charging capacity and efficiency to understand their relationship.	Charging capacity and efficiency are shown on clearly labeled axes.	High	Sprint-2
